Pregnancy Testing by Clarity Diagnostics

Clarity's rapid diagnostic tests are made with you in mind, to ensure ease of use, accuracy, and value. Our product line includes 7 product categories and over 80 primary products that are FDA approved and CLIA Waived. Clarity also provides you with flexible options not offered by competitors such as live product support backed by U.S. based corporate sales, customer service, and technical support teams. Our team is available to customers and distributor reps alike, preand post-sales for questions, training, and technical support. We also offer placement programs based on volume.

Clarity Pregnancy Testing

Clarity hCG strips and cassettes provide results in as fast as 40 seconds while maintaining 99% overall accuracy. There is no cross reactivity with FSH, TSH, or LH, and the test has a sensitivity of 10, 20, or 25mIU. Clarity also has urine/hCG controls available.

- ✓ One-Step
- ✓ 99% overall accuracy
- ✓ Built-in quality controls
- ✓ 24 month dating
- ✓ Room temperature storage
