COVID-19 Testing by Clarity Diagnostics

Clarity Diagnostics is a manufacturer and market leader of rapid diagnostic tests, diagnostic equipment, and over-the-counter diagnostic tests that are targeted toward Alternate Care, Acute Care, Continuum of Care, Laboratory, and OTC markets. Clarity's value proposition to its customers is high quality products at affordable prices while maintaining excellent customer support.

Clarity Offers COVIBLOCK COVID-19 IgG/IgM Antibody test kits that are effective and simple to use. This product was made with you in mind, providing the greatest accuracy and cost efficiency.

COVID Antibody Test

The Clarity COVIBLOCK COVID-19 rapid Antibody test is for both IgG and IgM- two types of antibodies which become present in blood during the late stages of a COVID-19 infection and last after the infection is over. COVIBLOCK is used with whole blood (Fingerstick & Venous), Plasma or Serum. Clarity also has universal COVID Antibody controls available.
