

Is Managing of All Your Medical Equipment Driving You Mad?

Equipment, People, Compliance... All Managed in one Place by Edge Biomed

April 12, 2021

If you are a medical or surgical provider, then your practice relies on equipment to diagnose and treat patients. Edge Biomedical provides service work on a variety of medical equipment.

- Do you have an inventory list?
- How many pieces of equipment do you have?
- Where is it all and what condition is it in?
- When does the warranty expire?
- When was it last calibrated?
- Do you have proof of compliance?

If you have more questions than answer, let Edge completed a complimentary on-site equipment verification and assessment. Find out why Edge Biomed is the right choice for your facility. Call 888-841-5155 for a quote today!

What to Expect:

- Our background tested, factory trained technician will asset ID and tag all of your equipment.
- A complete inventory list will be provided using eBioTrack, our inventory control and compliance platform.
- With Edge Biomed, you are now back in control!

eBioTrack
