

Find Onboarding Processes **SCARY?** NuEdge is Here To Help

Working with a healthcare GPO has a lot of great benefits, from business growth to cost savings. When starting on your partnership journey, you may find the onboarding process to be particularly intimidating. According to the [Supply Chain Brain](#), “One of the biggest challenges to vendor onboarding was simply the time it took...There was a significant risk of making mistakes in the onboarding process, from typos to crucial missing elements.” Luckily, NuEdge Alliance has ways to make the onboarding process significantly easier for you and your end-users. Keep reading to learn more!

Easy Enrollment

Enrolling with NuEdge is simple! On our website, you can find enrollment forms for distributors, manufacturers and providers. All you have to do is fill out the questionnaire and we will send you the “NuEdge Getting Started Package”. After all the necessary forms are filled out, we take it from there to get you enrolled.

Training

Once the enrollment process has begun, you will receive a personal log-in and materials for our website. Multiple training resources are available for our distributors. These resources help explain the GPO process, including customer enrollment, contract processes and rebating. These resources are there to help you better understand our processes and answer any questions you may have.

Additional Details

Last but certainly not least, to make the NuEdge onboarding process easier to understand, we will send you additional details on getting started. These include:

- Program information that you have access to under the NuEdge business.
- Login information to access the NuEdge website.

- Enrollment Directions.
- The rebate set-up and requirements.
- How to set up the rebate files for submission.

Onboarding can be intimidating, but here at NuEdge we want to make the process as easy as possible, for you and your customers. Don't be afraid to take a chance with NuEdge and start saving more for you and your customers today.
