

DropSafe™

Safety Lancets

www.dropsafe.info

A full portfolio of safety lancets designed for Safety, Comfort, and Simplicity during Capillary Blood Collection

HTL-Strefa Inc, a subsidiary of [MTD Group](#), is widely recognized as the inventor of the “safety lancet” product category, producing over 50% of safety lancets worldwide. We have a broad portfolio of safety lancets such different gauges & lengths and activation types to help you meet specific blood sample applications.

Our safety lancets have a strong legacy of quality and the following key product benefits:

Safety

- Designed to minimize the risk of needlestick injuries by fully enclosing the needle within the device before and after use.
- Auto-retraction mechanism ensures puncture accuracy and minimal trauma during capillary blood collection.

Comfort

- Silicone-coated, ultra-sharp needles, to increase patient comfort during skin penetration.
- Two-spring retraction technology ensures delivery of a single puncture at appropriate puncture force.
- Wide range of designs and sizes designed to increase patient comfort while achieving targeted blood volumes.

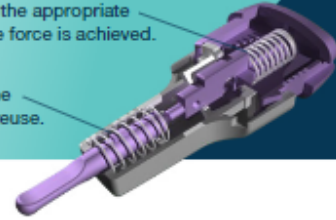

Simplicity

- Intuitive activation with no preloading for both button-activated and contact-activated versions.
- Ergonomically-designed protective cap for easy removal simply twist and pull to remove.
- Designed for convenient finger positioning and ideal blood sample volume collection.

DropSafe safety lancets have two springs to help improve patient comfort and ensure device reliability.

Return Spring
returns the needle into the safety lancet to prevent reuse.

Drive Spring
ensures the appropriate puncture force is achieved.

HTL-Strefa is a world leader in designing, developing, and producing medical devices with a core expertise in diabetes & safety sharps. We have a distinctive track record over 20+ years and pioneer innovative solutions for unmet needs. In North America, we specialize in the distribution of products for immunization, drug delivery and capillary blood sampling.

Our EU manufacturing facilities are advanced, specialized, and vertically integrated, with an impeccable quality record. We are the trusted supplier for many large suppliers/distributors, a partner for 3 of 4 leading blood glucose monitoring companies, and 2 of 4 leading global insulin supply companies.

| Product | | MFR # | Product Size | Quantities | |
