

SkinStitch Grows, Yet Still Sticks to the Classics

June 20, 2022

More than 20 years ago...

[SkinStitch LLC](#) began by trying to make a few things stick: an unrivaled dedication to personal customer service; a keen interest in consistently delivering exceptional quality at unparalleled value; and to make a medical skin adhesive that ... well ... “sticks” better than anything else on the market!

Company founder, Paul B. Morrow, recognized the incredible potential in developing and enhancing a unique medical adhesive applicator that amplifies the skill level of today's highly talented medical professionals. The initial SkinStitch design ensured the physician could precisely apply the medical adhesive with acute precision while ensuring none of the fluid is wasted in the delivery process. The result? A game-changing medical adhesive that delivers life-changing results to patients, and incredible cost and time savings for both health care providers and medical facilities.

Beginning in 2019...

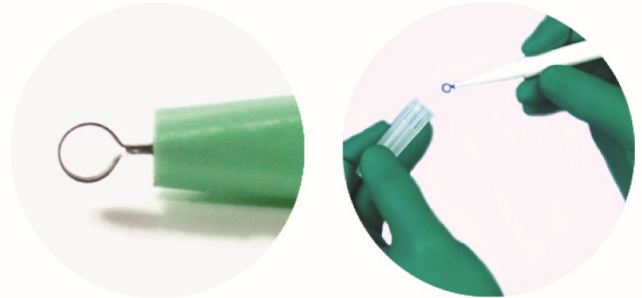

SkinStitch LLC president, Venkat Kakani, initiated an in-depth plan to expand the products and services provided by SkinStitch. The goal was to capitalize on the strong foundation of service and value which was the cornerstone of SkinStitch. The objective was to expand the breadth of products and services offered by SkinStitch that uniquely fit the scope of the company's DNA.

As a result, a wide range of new and exciting products are now being offered by SkinStitch that fit the same classic mold of “unrivaled personal customer service” and “exceptional quality and value” that have been at the core of the company.

Products such as skin staplers, dermal curettes, ear curettes, biopsy punches, veterinary medical adhesive and even an updated delivery system for the original SkinStitch product are now a part of the catalog.

Unfortunately, this creates a problem: We love our SkinStitch brand ... and we KNOW thousands of medical professionals all over the world love our SkinStitch brand as well. However, SkinStitch ... although a fantastic medical adhesive ... **only describes SkinStitch Medical Adhesive**. We need a better way to describe the scope of the products we now offer, as well as the broad range of products we will be offering very soon.

Introducing SS Medical Products

While the new name may be nothing more than a fresh coat of paint on a beloved classic, it really does describe the expanded universe of products we now offer.

Some things stay the same: you will still enjoy “unrivaled personal customer service” and can always expect “exceptional quality and value” from SS Medical Products.

Yes ... and you can also get *SkinStitch* as well!

SS Medical Products is a privately held company located in Massena, NY. For more information you can contact SS Medical Products on the web at www.ssmedicalproducts.com, or call (866) 254-3900.
