

# Sanitize and Save With the PDI Safety Station

Hand hygiene and clean surfaces are non-negotiable in healthcare facilities. Proper cleaning helps practices protect patients, healthcare workers, and visitors alike. But with limited resources, finding cost-effective solutions to maintain these high standards can be challenging. That's where PDI comes in. With PDI's Safety Station, you can easily access superior products anywhere in your facility.

## Why Choose PDI Products for Your Healthcare Facility?

PDI's products are trusted by healthcare professionals across the nation for their effectiveness, convenience, and value. Here's why these products stand out:

### 1. Sani-Hands® Instant Hand Sanitizing Wipes

When it comes to hand hygiene, nothing matches the convenience and performance of Sani-Hands® wipes. Designed to be more effective than gels or foams, these wipes:

- **Remove dirt and soil effectively** – making them ideal for fast and efficient cleaning between patient consultations.<sup>1</sup>
- **Enhance facility hygiene standards** while being gentle on the skin.<sup>2</sup>

### 2. Easy Screen® Cleaning Wipes

Touchscreens are notoriously tricky to clean, but they are often a hotspot for bacteria and pathogens due to constant use. Easy Screen® Cleaning Wipes are:

- Formulated with 70% IPA, making them perfect for touchscreens, medical equipment, whiteboards, and other sensitive devices.<sup>3</sup>
- Compatible with device-specific cleaning standards, so they won't damage anti-fingerprint coatings when used correctly.

### 3. PDI Safety Station

A safety station is essential for maintaining hygiene, especially in **high-traffic areas**:

- It can be placed in entryways, waiting rooms, or hallways, ensuring immediate access to hand sanitizers and cleaning wipes.
- The station encourages both staff and visitors to maintain cleanliness, creating a safer environment for all.

## A Layered Approach to Infection Prevention

By combining hand hygiene and surface cleaning, the Safety Station provides a **layered approach to infection prevention**. This dual strategy ensures comprehensive protection and minimizes the risk of cross-contamination.

Additionally, the Safety Station makes it easy to maintain compliance with infection control protocols, ensuring critical cleaning tools are always within reach.

## Why Healthcare Facilities Trust PDI

PDI takes pride in being at the forefront of infection prevention solutions. With a legacy of innovation and quality, healthcare professionals turn to PDI to:

- Maintain compliance with cleaning standards
- Improve patient safety
- Achieve better sanitation outcomes in high-pressure environments

With the combination of effective, user-friendly products and smart solutions like the Safety Station, PDI not only simplifies facility cleaning but also supports your infection control goals.
