

What is NuEdge CONNECT?

February 22, 2021

Group Purchasing Organizations (GPOs) help to reduce the costs of healthcare by leveraging the combined purchasing volume of its members. Their contract portfolios can increase competition across the continuum of care. NuEdge Alliance is no exception to this rule.

NuEdge CONNECT Programs are contracts/agreements that are negotiated with the aggregation of purchase volume. Through these programs, NuEdge can offer value for all stakeholders in the healthcare supply chain. It just makes sense to use NuEdge Alliance for your GPO solution.

- **Manufacturers** receive exclusive marketing assistance and access to Authorized Vizient/Provista/NuEdge distributors.
- **Distributors** will be able to offer your unique product and service solutions to providers.
- **Healthcare providers** will be able to access reduced costs on quality name-branded products, allowing valuable care for patients.

Search through our **Manufacturer Partners**. Those participating with a NuEdge CONNECT program are **identified** with the CONNECT logo.

Healthcare is local

Supporting your local distributor will put your hard-earned dollars back into the local economy. Did you know that small businesses account for approximately 60% of the gross domestic products in the United States? Small businesses also account for 64.9% of net new jobs. Wow... what an impact we can have by supporting local businesses!

Find a local Distributor in your area with our [virtual map](#).
